Darren Knight
CHIEF EXECUTIVE

Our focus is on ensuring that we continue to meet the needs of people living with HIV and respond effectively to the challenges they face. It ensures that everyone we connect with through intensive support receives the help they need to achieve the best possible outcomes.

You'll work closely with colleagues, clinics and partner agencies to deliver a person-centred service that responds to the complex needs of people living with HIV who have a detectable viral load. Through collaboration and partnership working, you will help ensure people can access the support, services and opportunities they need to thrive.

Everyone living with HIV, regardless of viral load, deserves to live in a world where HIV holds no one back. Good luck with your application.

What We Do

A big focus of our work is on supporting people with a range of different issues relating to HIV across the whole life course, including support for young people, support for ageing well, supporting people with complex lives, tackling vulnerability, inequality and promoting inclusion.

All of our support is user led, designed with, by and for people living with HIV.

Why We Do It

George House Trust believes that people should have the support, information, advice and guidance that they need to live well with HIV. Everyday, we see people who face discrimination, some are living in fear and most are managing the consequence of structural and societal stigma that is unique to HIV as a health condition.

We see our role as the support service to enable people to realise their potential and focus on HIV positive living.

Where We Work

Our work has a focus on Greater Manchester and Liverpool, and we tackle HIV-related stigma wherever we see it.
